I. You have received a letter from your English-speaking pen friend Zoe. This is what she wrote:

... I'm so fascinated that smartphones are now actively making their way into classrooms. I strongly believe that there are ways to use them responsibly to teach and educate the young minds. There are many educators, however, who view smartphones with suspicion and caution. Do you face similar problems in your school? How do you solve it and what can I as a student do to demonstrate the nearly unlimited value smartphones hold as teaching tools? On second thoughts, maybe I should just take things easy?

Using 60–80 words, write a letter to Zoe, answer Zoe's questions, and ask her 3 questions of your own. Follow the rules of letter writing.

Dear Zoe,

I hope you're well.

For me, smartphones are helpful, although some teachers don't allow them. I face problems about phones. I always showcase the positive about them, like browsers, because they help find books. Though, you should probably take things easy and follow the teacher's rules. How do you use your phone to study? Why do you believe that pupils can use them in class? What are the ways to use phones responsibly?

Write back soon.

Love,
Ilya

II. Explain the meaning of the following proverb using 60–80 words:

A picture is worth a thousand words.

Once I heard a proverb: "A picture is worth a thousand words". I thought about exploring it further.
As for me, the proverb is true. You can talk about anything as much as you want, but you need to prove it.
In my own life, this proverb has always helped me. Many people did not believe me, but when I showed them the picture as a proof they would think that it's true.

III. Read the Russian article below. Summarise the article in English and express your opinion about the story using 40–60 words. DO NOT translate the original article!

Изменения в языке

Интересно и не всегда объяснимо, с точки зрения лингвистов, то, что язык постоянно изменяется. Самый частый тип изменений связан с тем, что слова в языке перестают иметь свое прежнее значение, после чего они либо употребляются в новом значении, либо исчезают из языка вовсе.

Бывает так, что новое слово берется из другого языка. Такие слова называют заимствованиями. Заимствований много во всех языках: языки, живущие по соседству друг с другом, легко обмениваются своими словами. Так, в английском языке много заимствований из старофранцузского (из-за завоевания Англии норманнами в XI веке).

Некоторые слова, однако, живут дольше, чем другие. В каждом языке есть своя группа «слов-долгожителей» (такие слова, как отец, мать, вода, сердце, два и т.д.). Такие слова очень важны для лингвистов, поскольку они позволяют установить, являются ли языки родственными.

Еще один тип изменений связан с изменением звучания слов. Активные изменения в произношении слов часто совпадают с бурными периодами в истории народа, говорящего на этом языке (завоевания, переселения и т.п.).

Последний тип изменений связан с изменениями в грамматике. Так, например, в древнерусском языке у существительных было двойственное число, которое употреблялось, когда речь шла только о двух предметах. В современном русском языке двойственного числа нет.

The English language is constantly changing. Every week we see new words appear. There are many reasons for this, but in my opinion, the most important is social media. For example, the word "hangry", the result of blending, is used in posts.
As for me, the changes in the language are for the better. They indicate that English is alive.

IV. Comment on the story in pictures using 60–80 words:

Once upon a time, in a small house with his grandparents, there lived a snowman called Snowhat. One day, grandpa decided to prepare his new oven to cook dinner.
When Snowhat walked into the house, he saw the oven and did not understand its purpose at first. He decided to rest on it for a while, because it was warm nearby.
Little did he know that it would get too hot. He feared high temperatures and became ill.
