I. You have received a letter from your English-speaking pen friend Zoe. This is what she wrote:

... I'm so fascinated that smartphones are now actively making their way into classrooms. I strongly believe that there are ways to use them responsibly to teach and educate the young minds. There are many educators, however, who view smartphones with suspicion and caution. Do you face similar problems in your school? How do you solve it and what can I as a student do to demonstrate the nearly unlimited value smartphones hold as teaching tools? On second thoughts, maybe I should just take things easy?

Using 60–80 words, write a letter to Zoe, answer Zoe's questions, and ask her 3 questions of your own. Follow the rules of letter writing.

Hello Zoe,
I agree with your opinion. Despite people using phones not right we can solve some problems. Yes we have the same problems in our schools, our teachers punish the misbehaving students. You can tell your teacher about all the good thing you can do using your phone during the lesson. Can you tell me about problems in your school? Do you suffer from them? Have you taken any action?
Hope I covered everything,
Yours Alex.

II. Explain the meaning of the following proverb using 60–80 words:

A picture is worth a thousand words.

In my opinion this idiom want to tell us that the fine works of art carry a lot of information throughout the centuries. Emotions, feelings we can get from just looking at pictures. Every pose, every colour, every face has something interesting to tell us. Words cannot describe all the details which we can see on the work of the painters. Respect the paintings and understand how to view them.

III. Read the Russian article below. Summarise the article in English and express your opinion about the story using 40–60 words. DO NOT translate the original article!

Изменения в языке

Интересно и не всегда объяснимо, с точки зрения лингвистов, то, что язык постоянно изменяется. Самый частый тип изменений связан с тем, что слова в языке перестают иметь свое прежнее значение, после чего они либо употребляются в новом значении, либо исчезают из языка вовсе.

Бывает так, что новое слово берется из другого языка. Такие слова называют заимствованиями. Заимствований много во всех языках: языки, живущие по соседству друг с другом, легко обмениваются своими словами. Так, в английском языке много заимствований из старофранцузского (из-за завоевания Англии норманнами в XI веке).

Некоторые слова, однако, живут дольше, чем другие. В каждом языке есть своя группа «слов-долгожителей» (такие слова, как отец, мать, вода, сердце, два и т.д.). Такие слова очень важны для лингвистов, поскольку они позволяют установить, являются ли языки родственными.

Еще один тип изменений связан с изменением звучания слов. Активные изменения в произношении слов часто совпадают с бурными периодами в истории народа, говорящего на этом языке (завоевания, переселения и т.п.).

Последний тип изменений связан с изменениями в грамматике. Так, например, в древнерусском языке у существительных было двойственное число, которое употреблялось, когда речь шла только о двух предметах. В современном русском языке двойственного числа нет.

In researchers opinion the language changes without stopping. Words are changing or dissapearing.
Sometimes the nearby countries exchange words. English has a lot from the old French.
Every language has it's own group of long living words, which helps to understand if the diffrent languages are related.
There are changes related to pronuncuation and grammar.

IV. Comment on the story in pictures using 60–80 words:

This story in pictures descirbes the reality of having the bad habits. I think the artist wanted to warn us about their harm. The humans just like snowmen "melt" from them. They slowly but surely shorten your livespan, abilities and opportunities. You shouldn't throw you future away. People don't even care about that nowadays. They are just like snowmen who are slowly marching in the fireplace.
