I. You have received a letter from your English-speaking pen friend Zoe. This is what she wrote:

...Yesterday at school I witnessed my classmate being bullied by two senior boys. I was horrified and appalled at the scene. I strongly believe bullying should be eradicated, with bullies charged under criminal law. What can I do as a teenager to raise awareness about this problem? Have you ever come across a similar issue at your school? On second thoughts, maybe I should just take things easy and stop worrying about all this?

Using 60–80 words, write a letter to Zoe, answer Zoe's questions, and ask her 3 questions of your own. Follow the rules of letter writing.

Hi Zoe,
I was glad to recieve your letter and very sorry to hear that from you. Despite the fact that I have never found myself in such situation, I would recommend you to tell it to school authorities. However, you may also take it easy and avoid meeting senior boys.
By the way, do you have any strong friends? If so, could you tell me something about them? Is your classteacher loyal towards bullies?
Best wishes,
Max

II. Explain the meaning of the following proverb using 60–80 words:

Do not cry over spilled milk.

At first glance, it might seem that the proverb does not make any sense, but the actual meaning is pretty simple. There is no point in regretting doing something that you did in the past that you cannot change now. The best thing to do in this case is to analyse the results. Thus, you will be very likely to avoid making the same type of mistakes in the future.

III. Read the Russian article below. Summarise the article in English and express your opinion about the story using 40–60 words. DO NOT translate the original article!

Изменения в языке

Интересно и не всегда объяснимо, с точки зрения лингвистов, то, что язык постоянно изменяется. Самый частый тип изменений связан с тем, что слова в языке перестают иметь свое прежнее значение, после чего они либо употребляются в новом значении, либо исчезают из языка вовсе.

Бывает так, что новое слово берется из другого языка. Такие слова называют заимствованиями. Заимствований много во всех языках: языки, живущие по соседству друг с другом, легко обмениваются своими словами. Так, в английском языке много заимствований из старофранцузского (из-за завоевания Англии норманнами в XI веке).

Некоторые слова, однако, живут дольше, чем другие. В каждом языке есть своя группа «слов-долгожителей» (такие слова, как отец, мать, вода, сердце, два и т.д.). Такие слова очень важны для лингвистов, поскольку они позволяют установить, являются ли языки родственными.

Еще один тип изменений связан с изменением звучания слов. Активные изменения в произношении слов часто совпадают с бурными периодами в истории народа, говорящего на этом языке (завоевания, переселения и т.п.).

Последний тип изменений связан с изменениями в грамматике. Так, например, в древнерусском языке у существительных было двойственное число, которое употреблялось, когда речь шла только о двух предметах. В современном русском языке двойственного числа нет.

The article reveals circamstances, under which, language changes may occur. Overall, it names some common reasons, such as lexical change of the meaning of a word or foriegn occupation which has an impact on the language and provides examples. To my mind, the article is very informative, because it explains reasons in an easy way and illustrates examples, too.

IV. Comment on the story in pictures using 60–80 words:

The given pictures reveal a story about a snowman, who after having a long, peaceful walk got cold and chose to return home. Strangely enough, the snowman decided to spend some time sitting on the heater at home. What he did not realise, is that he consists of snow which after touching the heater started melting rapidly and the snowman vanished. To my mind, the moral of the story is to think properly before doing something.
